The UPSTATE NEW YORK HOSPITAL QUALITY INITIATIVE (UNYHQI) utilizes Medmined software from Carefusion, in an effort to reduce nosocomial infections.

The UPSTATE NEW YORK SURGICAL QUALITY INITIATIVE (UNYSQI) is associated with the American College of Surgeons National Surgical Quality Improvement Program.

BORDERING ON ZERO (BOZ) is a collaborative effort for patient safety, hospital acquired condition reduction and culture change initiatives within participating hospitals.

The ROCHESTER PATIENT SAFETY COLLABORATIVE is a joint venture among Rochester hospitals to reduce Clostridium difficile infections.
