National

If you find yourself traveling out of our network, we have plan options that give you the freedom to receive covered services from other doctors and hospitals without having to pay the full cost.

Worldwide

Enjoy peace of mind if you travel abroad, with worldwide coverage for urgent and emergency care included in every plan. For our members, this means:

- Access to care at **more than 14,000* urgent care centers** throughout the United States alone
- No surprise bills for emergency room visits across the globe. **Any emergency care is covered as in-network at a fixed copay**, no matter where it's located, how long you're there or how many tests are run as a result of your visit.

Access to care from anywhere.

We offer virtual health services and resources on all Univera Healthcare Medicare Advantage plans to ensure you always have access to the care you need. So, whether you find yourself away from home on a pre-planned trip or an unexpected adventure, there's a team that will always be **right here, for you** – no matter where life takes you.

Telehealth for medical and behavioral health

Your doctor may offer remote care visits via telephone, email, or video chat, so that you may continue your care with your trusted provider, even when you're traveling.

If this isn't currently offered through your doctor or if they aren't available for an appointment, we have partnered with MDLive® to offer virtual care visits for medical and behavioral health conditions. Connect with a doctor, therapist, or psychiatrist to receive affordable care from anywhere through your phone, tablet, or computer. Cost shares differ by plan, but all plans offer:

- \$0 - \$5 copay for medical telehealth appointments with an MDLive provider
New for 2026: Telehealth services now include dermatology appointments.
- \$25 - \$45 copay for behavioral telehealth appointments with an MDLive provider

This is a great option if you happen to be on the road or away from home.

MDLive telehealth appointments are quick and convenient.

24/7 Nurse Care Line:

Our specially trained registered nurses are available by phone 24/7 to answer your general questions and provide support for chronic or complex health conditions for no charge.

Wellframe® app:

Get instant access to care managers, dieticians, nurses, and other health care professionals that can **help you meet your health and wellness goals, all for free.**
