

\$250 Flex Card

(Rewards and Incentives)

Dental, Vision,
and Hearing Services

How it works:

- 1 Your flex card is pre-loaded with your \$250 balance and is active on the start date of your plan (no need to activate). Unused funds do not roll over into the following plan year. **Please do not dispose of your card. It will automatically activate at the beginning of the year as long as you are a member.**
- 2 Keep your flex card in your wallet to pay for covered services received at the eligible locations listed.
- 3 When making a transaction, always select CREDIT at the point of purchase (do not select DEBIT). If making a purchase that exceeds the amount remaining on your flex card, you must instruct the merchant to swipe for an amount that does not exceed your balance, and use another payment method(s) for the remainder.
- 4 If you forget your card or receive a covered service at a non-eligible location, you can submit a claim and be reimbursed from your balance.
- 5 Check your balance by calling **1-833-655-1780** or going to **MyUniveraMedicare.com**.

Tip for getting the most out of your flex card:

Use your plan benefits **first** and then **use your flex card to pick up any balance** that may remain.

Member example:

Mary went to the dentist for a root canal. When she was checking out, they told her the amount due. She thought about using her flex card to pay, but first asked if the services had been run through her insurance. They told her they would do that now that the visit was complete, and they would bill her if any balance was owed. If Mary receives a bill in the mail with a balance for her visit, she will then use her flex card to pay the remainder.
